January, 2010

TO: Members of the Queen Bee Community

FROM: Victoria L. Tabbert, Superintendent

We have been informed by the Village of Glendale Heights that there will be two projects which will impact traffic on Bloomingdale Road beginning in the spring of 2010. The Village has approved a water main project and DuPage County has approved a resurfacing project. We anticipate that these projects will cause some intermittent lane closures and other traffic interference issues which may make access to Glenside Middle School, Glen Hill Primary School and the Queen Bee/Glenwood campus difficult at times. We are working with the Village of Glendale Heights to minimize the negative impact, however, we realize that there will be some conditions which will be beyond our control.

We will continue to provide bus transportation to qualified students. Parents of bussed students will be notified if there is any impact on bus routes. We ask parents who transport their own children to school to consider establishing alternate plans for transporting their child(ren) when construction begins; including carpooling, if possible. We also encourage you to use alternate routes to Bloomingdale Road whenever possible during these projects. Please consider Glen Hill Drive as an alternate student drop off/pick up location and visitor parking for Glen Hill School.
